

Instruction for Google Authentication for the Station Information System (SIS), Version 2.2

In order for the notification system to work within SIS with the required Google 2-Step Authentication, please follow these instructions the first time you log in after the deployment of SIS version 2.2.

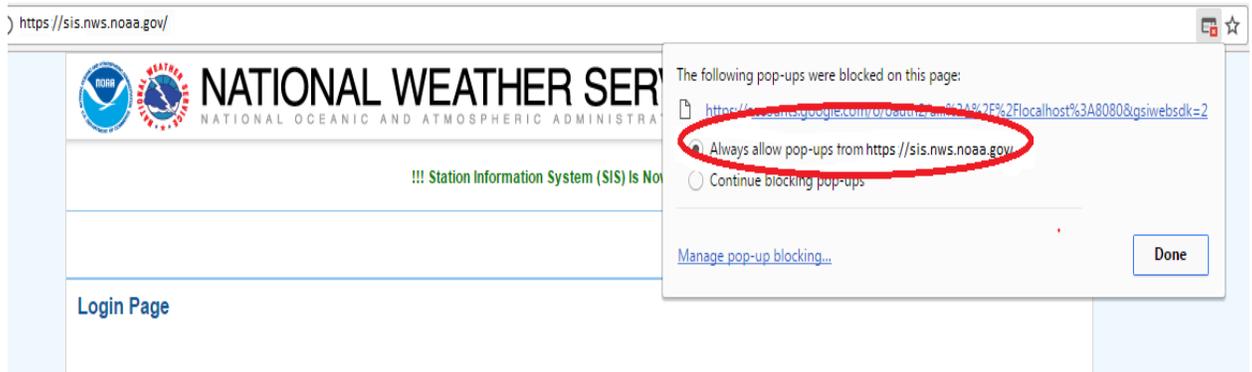

1. Go to <https://sis.nws.noaa.gov/>
2. Click Sign In with your NOAA Google account (email).
3. A pop-up window will open. Click on the “Allow” button.

4. If a pop-up doesn't appear, check to see if there is an icon indicating that a pop up was blocked. The example shown is in Chrome.

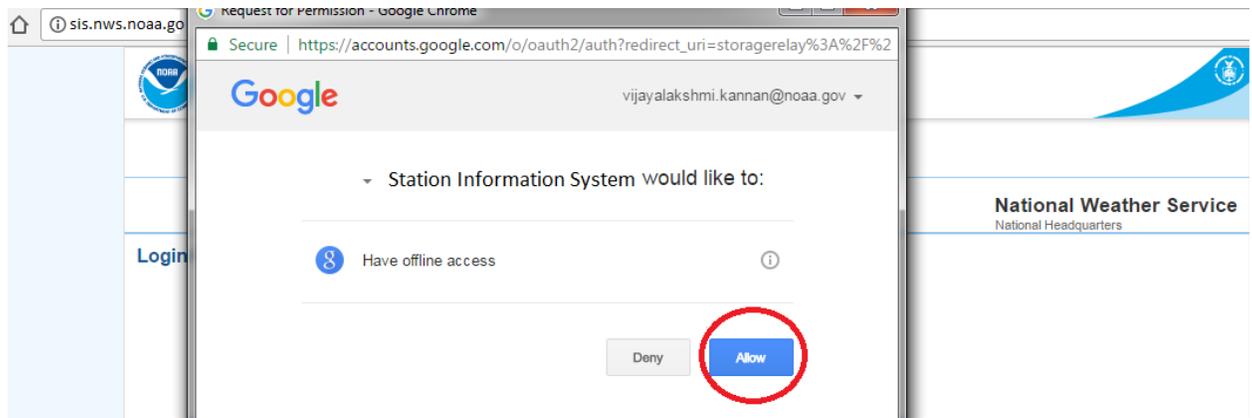

- Click on icon for options.

- Select “Always allow pop-ups from “https://sis.nws.noaa.gov” and click the “Done” button.

- Go to https://sis.nws.noaa.gov/, press enter. Another pop-up will appear.

- Click the “Allow” button. You will be taken to your dashboard.

!!! Station Information System (SIS) Is Now Operational !!!
